Abstract

This article presents some solutions to enhance tourism promotion for Tuyen Quang and Binh Phuoc provinces representing the potential of tourism development in the North and in the South of Vietnam. Some comparisons have been made to stress differences in promotion activities policy set out by the government of those two provinces.

Keywords: Tourism promotion, tuyen quang, binh phuoc, Vietnam

1. Introduction

Today, tourism has been identified as a key economic sector in the process of socio-economic development of the country in general and of Tuyen Quang and Binh Phuoc provinces in particular. On the momentum of the overall development of the economy, Vietnam's tourism activities are on the path of professional and methodical development, contributing significantly to promoting economic growth and expanding international cooperation and promote the image to the world.

Recently due to the global economic downturn, climate change as well as geopolitical factors have significantly affected the development of the tourism industry in general, tourist decisions in particular. The fierce competition of market rules, especially the tourism industry, an economic sector with product characteristics that are both tangible and intangible, provides information, creates images of products and drawing tourists to tourist destinations is a necessary job for the tourism industry of the country in general and of each region in particular.

However, in order to achieve the purpose of drawing tourists to their localities and destinations, it is necessary to have the direction of policies, unified and transparent policies to guarantee the effective operation of specialized agencies, coordination among related agencies, and active participation of businesses. In particular, tourism promotion plays a very important role, is an effective tool for attracting tourists to tourist destinations. Therefore, researching tourism promotion activities is one of the issues that need to be carefully studied in the development of the tourism industry.

Based on the characteristics and strengths of the locality associated with reasonable orientations and solutions, recently, the tourism industry of the mountainous province of Tuyen Quang has been developing strongly. Not only contributing to the preservation and promotion of traditional cultural values; In addition to the budget revenue, tourism activities also directly create a stable income for thousands of workers in the area. Besides, Binh Phuoc is a province in the Southeast region, a gateway, a bridge between the Central Highlands region and provinces in the southern key economic region and the Kingdom of Cambodia, with a natural position that is very convenient for tourism development. However, up to now, the province has not fully exploited comparative advantages for development. Therefore, Binh Phuoc needs to have more comprehensive and integrated solutions for developing tourism.

Stemming from inherent potentials and limitations in tourism promotion activities of Tuyen Quang and Binh Phuoc, showing that in order to exploit effectively and be a tool to create bridges for tourism destinations, it is necessary to promote promotion activities, perfecting policies, apparatuses for tourism promotion. With the above approach, the study of

"International tourism promotion activities in Tuyen Quang and Binh Phuoc in order to propose solutions to promote tourism promotion activities is essential and urgent for tourism development in Tuyen Quang and Binh Phuoc.

2. Theoretical framework

Tourism promotion is a market research activity, propagandizing, promoting and campaigning in order to find and promote development opportunities and attract tourists^[1, 2]. The content of tourism promotion from 2018 is specified in the 2017 Tourism Law, specifically^[1, 2]:

1. Promote and introduce the country, people of Vietnam, cultural heritages, historical-cultural relics, famous landscapes, creative labor works of people, national cultural identity to increase tourist attraction.
2. Building and developing national, regional, local and business tourism brands; researching tourism market, building and promoting tourism products to suit the tastes of tourists.
3. Propagating and raising social awareness about tourism, contributing to ensuring a safe, safe, healthy and civilized tourism environment, promoting the nation's hospitable tradition.
4. Mobilizing, seeking opportunities, concentrating resources for investment in infrastructure development, material and technical foundations for tourism; diversify and improve the quality of tourism services.
 - Participate in a training course in accordance with Clause 4 Article 62 of this Law;
 - Wearing a tour guide's card while practicing as a tour guide;
 - International tour guides and domestic tour guides must carry along papers assigning tasks of enterprises organizing tour programs and tourism programs in Vietnamese while practicing. In case of guiding international tourists, tourist guides must bring travel programs in Vietnamese and foreign languages.

Tourism promotion policy

- The State regulates the coordination mechanism between state management agencies on tourism at the central and local levels and organizations and individuals doing tourism business in carrying out propaganda, advertising and promotion activities and travel.
- Ministries, agencies and mass media agencies, within the scope of their tasks and powers, shall coordinate with central state agencies in charge of tourist tickets in organizing propaganda, promotion and promotion activities. Tourism promotion at home and abroad.
- The State creates favorable conditions for the use of foreign experts and mass media to participate in propaganda and promotion activities in order to raise the image of the country, people and tourism of Vietnam.
- The State encourages and takes measures to raise tourism awareness for all levels, sectors and strata of society.

3. Overview of tourism industry in Tuyen Quang and Binh Phuoc

3.1 Overview of tourism in Tuyen Quang

Tuyen Quang is a mountainous province located in the Northeast of our country, about 165 km north of Hanoi. The

natural area is 5,870 km², the population is over 732,256 people with 22 ethnic groups living together^[6]. Tuyen Quang is a province that converges all strengths to develop various types of tourism: History, spirituality, ecology and culture. With over 500 historical and cultural relics in the area, Tuyen Quang province is like a revolutionary museum of the whole country. In addition, the province is also a place to start, converge and intersect with the culture of ethnic minorities in the Northern mountainous region with many special festivals, legends, folk songs full of love, and where nature is bestowed with poetic beauty. People here have long had a reputation not only in appearance but also hidden beauty of kindness, affection and hospitality. Tuyen Quang promises to be an attractive destination for tourists^[6]. Places to visit Tuyen Quang^[7, 8]:

- Ban Ba Waterfall
- Ho Na Hang Lake
- Thac Mo Waterfall
- My Lam Mineral Spring
- Relics of Tan Trao commune
- Tuyen Quang temple

3.2 Overview of tourism in Binh Phuoc

Not knowing the preferential nature or the creation of the earth, Bu Dang district of Binh Phuoc province has more than 400 hectares of grasslands. A grassland of nature associated with rapids and the S' tieng ethnic group in the southern Truong Son range is unique on the Southeast Asia map, if not the world. And yet, Binh Phuoc is also a province in the southern key economic region, a land transition from the Central Highlands to the Southeast with 41 ethnic groups living together^[4, 5, 12]. Binh Phuoc also has 36 relics from the national special level to the provincial level. But on the current tourist map, Binh Phuoc does not have any true resorts. Is the Politburo's Resolution No. 08-NQ / TW of January 16, 2017 on developing tourism become a key economic sector to push Binh Phuoc tourism "to take off"? Binh Phuoc is like a pearl of the Southeast. With its majestic nature and a series of little-known landmarks, this land still has countless mysteries that everyone needs to discover^[10, 11, 15]. Tourist destinations not to be missed in Binh Phuoc^[9, 10, 15]:

- Bu Lach grassland
- Soc Bom Bo
- Bu Gia Map National Park
- Ho Suoi Lam Lake
- Ba Ra Mountain - Thac Mo
- Bu Dang rubber forest
- Cat Tien National Park
- Waterfall No. 4

4. Conclusions

Vietnam is a country that attracts foreign tourists to visit and explore by unique, new and ancient natural wonders, ... so we need to develop more places. pristine, rustic like in Tuyen Quang and Binh Duong provinces to have more new attractions for domestic and foreign tourists ^[13-15]. Tuyen Quang is a province that converges with all its strengths to develop various types of tourism: History, spirituality, ecology and culture. Binh Phuoc needs to have more comprehensive and integrated solutions for the development of "Smokeless industry". Tourism activities bring a lot of positive effects on nature conservation, environmental enhancement, infrastructure improvement and especially for the country's economy. Promotion activities in Tuyen Quang will develop faster because this land has a long revolutionary tradition - a place that preserves more cultural heritages than Binh Phuoc, so it is easy to create curiosity to explore. Foreign tourists want to visit and learn about the cultural values here bring ^[7, 8].
